An *autistic* conference

Monday 4th – Thursday 7th August 2025

AUTSCAPE is a conference with a difference. It is an international, inclusive event, run by and for autistic people. Diagnosis not required. All ages are welcome, children included (some of the organisers bring their own)! This year's theme is 'Evolving Autistic Space'.

Autscape is a retreat from mainstream society and an escape to autistic space, where being and acting autistic is normal (but not required). It is also an educational conference, a social gathering, and a great opportunity for networking and for developing advocacy.

Autscape is a non-profit event run by an autistic-led UK Registered Charity. All income is used to pay for the venue and programme. In 2025, we celebrate our 20th anniversary!
